

3588 Who is the Real User of Design 25?

Chuck Spaulding (#2355)

The name of the real user of perfins design 25 may be another dilemma for the US Catalog Editor. According to the current version of *The Catalog of United States Perfins* perfins design 25 is the confirmed used by the Brambach Piano Company of New York City is the confirmed user of perfins design 25. Francis Bacon Piano, New York City is listed as an additional user in the Appendix.

The above 1914 envelope shows The Autopiano Company, 12th Avenue, 51st to 52nd Streets, New York, NY as an additional user. Were these three piano companies under a single ownership with different names? Did the companies merge or is there some other explanation? Members with perfins design 25 on cover should send photocopies

DES-25
